DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 16 April 2022 at 05:34 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Ongoing sunny weather will lead to pockets of Moderate air pollution developing across parts of southern and eastern England, mainly near urban sources such as busy roads. Low levels of air pollution are expected for the rest of the UK

Tomorrow: Areas of Moderate air pollution are expected on Sunday, perhaps more widely across England and Wales than on Saturday. Otherwise Low levels are expected.

Outlook: Pockets of Moderate air pollution are expected across parts of southern England and Wales through the period, and cannot be ruled out elsewhere. However, Low levels are expected for most.
